MultiCyclone 12 Ultra

MultiCyclone 16 Ultra

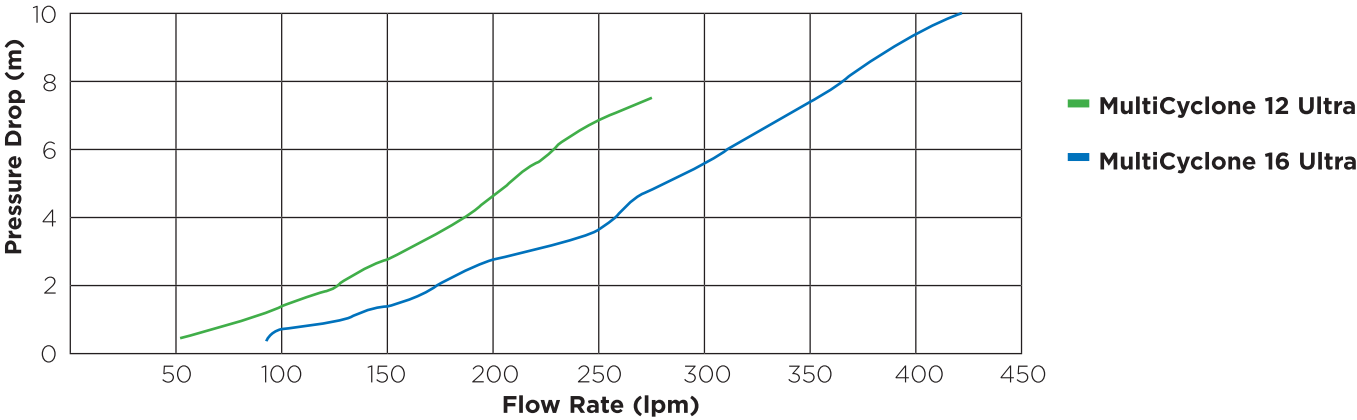

MULTI CYCLONE ULTRA
DUAL STAGE WATER FILTRATION

MultiCyclone Ultra combines centrifugal and cartridge filtration into one streamline housing, creating an ultra compact filtration system that can be vertically installed on a pool pump.

- Spins out debris up to 30 microns
- Dual stage Filtration cyclone & Element
- Ideal for new and existing installations
- Dramatically reduces waste watery
- Extends filter cycles by at least 4 times
- Requires NO additional pad space
- Simple installation
- Works with all equipment brands

Head Loss Curves

Warranty
MultiCyclone Ultra is covered by a 2 year warranty. Commercial installations are covered by a 1 year warranty.

SAVE TIME, WATER AND ENERGY

Dual stage filtration

Incoming water tangentially enters its multiple hydrocyclones, generating a strong centrifugal effect. Approximately 80% of the incoming dirt load is spiralled down to its clear sediment chamber. The outgoing water is finally polished via its inbuilt cartridge filter, producing crystal clear water.

Extended filter capacity

As MultiCyclone Ultra’s centrifugal section filter pre-filters up to 80% of the incoming dirt load, the capacity of its 75ft² filter cartridge is magnified by up to 5 times.

Ease of maintenance

MultiCyclone Ultra’s sediment chamber is easily cleaned by opening its purge valve. Only 4 gallons of water is discharged.

Saving nearly 2,000 gallons a year.

Ultra compact

MultiCyclone Ultra’s streamline design combines the benefits of the Waterco award winning MultiCyclone and a compact cartridge filter that enables a reduction in pool equipment foot print and required pipe work, reducing the filtration system overall head loss. The MultiCyclone Ultra can also be mounted using the MultiCyclone support stand.

Note: It is recommended when installing the MultiCyclone Ultra directly to the pump as illustrated, the MultiCyclone Ultra should be supported to ensure stability.

MultiCyclone Support Stands

The MultiCyclone has two purpose designed support stands to suit all MultiCyclone models and most installations.

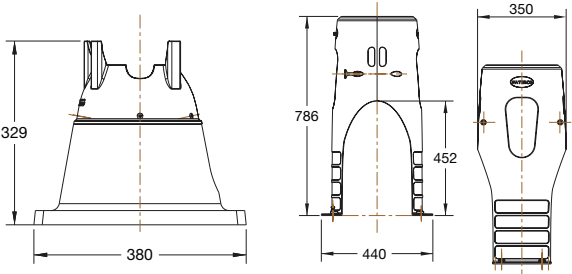

MultiCyclone Stand MKII
part # 200372

MultiCyclone Pump Stand
part # 2003730

MultiCyclone Stand MKII, a great option if the height of the installation is prohibitive.

Dimension

Note: MultiCyclone Support Stand is suitable for most Waterco Domestic Pool Pumps. Excluding Hydrostar & all Commercial Pumps.

Specifications

Part number	Model	Hydrocyclones	Connection Ports	Minimum Flow	Maximum Flow	Filter Area	Maximum Pool Size	Maximum Pressure
200378	MultiCyclone12 Ultra	12	1 1/2"	11gpm	60gpm	75ft²	108,000l	50psi
200379	MultiCyclone16 Ultra	16	2"	13gpm	74gpm	75ft²	134,000l	50psi

Maximum flow is limited by the surface area of the filter cartridge. Residential Cartridge Design Filtration Rate: 41 lpm/m² (1gpm/ft²)
