

# EXOTUF Filter

Superior strength and de-

Designed to cope with the cyclic pressures of the modern day swimming pool, Exotuf filter vessels are precision injection moulded for superior strength and dependability.

Exotuf filters are ideal for pools equipped with in floor cleaning systems and high powered pumps.

- Granular media filtration
- Multiport valve for ease of use
- Pressure rated at 350 kPa
- Corrosion and UV resistant

## Superior Strength

Exotuf filters are considered one of the strongest filters within its class. Its filter vessel is precision injection moulded within minimal tolerances for enhanced structural strength.

Pressure rated at 350 kPa, Exotuf filters are ideal for pools equipped with in floor

Multiport valve with ergonomic handle and quick connect barrel unions

Clear sight glass for backwash inspection

Pressure gauge to determine the filter's capacity

Multiport valve clamp provides 360° orientation of the Multiport valve for simple installation and service

UV and corrosion resistant

Hydraulically balanced flow distribution, to maximise filtration and backwashing

Large filter base for stable floor mounting

## Ease of Maintenance

Cleansing the filter simply requires turning the filter's multiport lever from the "filter" position to the "backwash" position, which reverses the flow of water in the filter,

## Technical Specification

| Model No. | Valve Size (mm) | Inner Dia. (mm) | Filter Area (sq.m <sup>2</sup> ) | Bed Depth (mm) | Max. Flow* (lpm) | Max. Pool Size (litres) | Min. Backwash (lpm) | Media Volume (litres) | Glass Pearl (kg) | Sand 16/30 (kg) | Zeolite 1 - 2.2 (kg) |
|-----------|-----------------|-----------------|----------------------------------|----------------|------------------|-------------------------|---------------------|-----------------------|------------------|-----------------|----------------------|
